

Lorri Andersen, DTM

I am running for Club Growth Director. Over the past year, I have watched our clubs struggle through downturns in member retention, social distancing, and Pathways. Many have said that Pathways is not for them and given up their memberships. Social distancing has caused many clubs to select an online option to continue meeting while others have chosen not to meet at all. If I am elected, I will work directly with your leadership team to help you overcome these challenges. Club growth and member retention are my focus as your Club Growth Director

I have been a member of Toastmasters International since 2008. I joined Toastmasters to complete a goal at my place of employment. I see Toastmasters as an integral part of my education and individual growth. I have served at most offices at the Club Level, including President and VP Education, and several times both an Area Director and Division Director.

Inspired by the Toastmasters High Performance Leadership Module, I moved my education to the next level.

I completed my Master's Degree in Information Technology completing my Thesis studying High Performing Teams. Toastmasters helps individuals to become high performing individuals - self-confident and empowered - ready to become a part of high performing Teams.
